LEGAL MATTERS PENDING BEFORE VARIOUS COURTS AND NATIONAL COMPANY LAW TRIBUNAL

Order dated 14.03.2012 passed by Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur inter alia in S.B. Civil Misc. Appeal No. 2218 of 2011 in respect of partition suit was set aside by the Hon'ble Supreme Court vide order dated 04.08.2014 and the matter was remitted back to Hon'ble High Court of Judicature of Rajasthan for its fresh consideration after hearing the parties. Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, after hearing the parties, passed an order dated 06.04.2015 partially setting aside Order dated 10.02.2011 passed by the Court of Ld. ADJ, Jaipur. The order dated 06.04.2015 passed by Hon'ble High Court of Judicature of Rajasthan was challenged before the Hon'ble Supreme Court of India by the original Plaintiffs by filing SLP (C) No.11870 of 2015 and Hon'ble Supreme Court of India dismissed the SLP vide order dated 29.01.2019. After dismissal of the SLP filed by Original Plaintiffs there is no restraint order against the Company for transferring or alienating its properties or creating charge over the properties of the Company.

The cases filed against the Company under Section 397-398 of the Companies Act, 1956 are still sub-judice before the Hon'ble National Company Law Tribunal (erstwhile Company Law Board), Jaipur/Kolkata which are yet to be heard finally by the NCLT.

The company owns 247500 equity shares of Saurabh Agrotech Pvt. Ltd., which was illegally transferred. This illegality has been challenged by the Company before the National Company Law Tribunal (NCLT) under Section 111 of the Companies Act, 1956. Since the case is sub-judice before NCLT and Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, the holding of such investment is continued to be shown in the books of the company.

Presently, the Company is registered owner of SCOOTER trademark/device/logo and copyright holder for the artwork of SCOOTER Wavy device which is registered with Registrar of Trade Mark and Copyright. The Company is taking appropriate legal action against all the persons who are infringing its trademark and copyright. The Company is also defending its right before the Hon'ble Courts and Tribunals, wherever the challenges against use of 'Scooter' and /or any other intellectual property rights of the Company have been made.

Deputy Director, Directorate of Enforcement, Patna filed a complaint on 06.12.2018 under Section 5(5) of the Prevention of Money Laundering Act, 2002 (PMLA) before Adjudicating Authority against the Company on the basis of provisional attachment OC No. 1064/2018. The Hon'ble Adjudicating Authority (PMLA) vide its order dated 02.05.2019 confirmed the provisional attachment order and allowed the complaint filed by Deputy Director, Directorate of Enforcement, Patna. As per the order, an Appeal against the above said order lies to Hon'ble Appellate Tribunal, PMLA, New Delhi under section 26 to the PMLA Act. The Appeal may be filed within a period of 45 days from the date of receipt of the order.

The Company filed an Appeal before Appellate Authority, PMLA, Delhi titled Vijay Solvex Limited Vs. Deputy Director, Enforcement of Directorate against order dated 02.05.2019 passed by the Adjudicating Authority, PMLA and also filed an application for de-freezing the bank account of the Company held in State Bank of India. The Appellate Authority vide order dated 24.07.2019 has directed ED to defreeze the account of the Company and the said account is now operational. The matter is next listed for final arguments on 27.11.2019.

The Board is hopeful that the pending matters would be disposed of in favour of the Company.

SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31.03.2019

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Vijay Solvex Limited,
Bhagwati Sadan,
Swami Dayanand Marg,
Alwar-301001 (RAJ.).

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Vijay Solvex Limited** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in our opinion, the company has, during the audit period covering the financial year ended **31st March, 2019**, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

1. I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended **31st March, 2019**, according to the provisions of:
 - I. The Companies Act, 2013 (the Act) and the rules made there under;
 - II. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
 - III. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
 - IV. Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
 - V. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 and the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; (**Not Applicable to the Company during the Audit Period**).
 - d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; (**Not Applicable to the Company during the Audit Period**).
 - e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; (**Not Applicable to the Company during the Audit Period**).

- f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client with respect to issue of securities; **(Not Applicable as the Company is not registered as Registrar to Issue and Share Transfer Agent during the Audit Period).**
- g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; **(Not Applicable to the Company during the Audit Period).**
- h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; **(Not Applicable to the Company during the Audit Period).**
- VI. Others Laws Specifically applicable to the Company as Identified by us and informed to us by the Company:
- Food Safety and Standards Act, 2006 and rules and regulations made thereunder.
2. I have also examined compliance with the applicable clauses of the following:
- i. The Secretarial Standards issued by The Institute of Company Secretaries of India.
 - ii. The Listing Agreement entered into by the company with the BSE Limited as per the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
3. During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, Listing Regulations etc. mentioned above subject to the following observations:-
- a) As per SEBI Circular No. SEBI/Cir/ISD/3/2011 dated June 17, 2011 and further clarification issued vide Circular No. SEBI/Cir/ISD/05/2011 dated September 30, 2011, 100% shareholding of the Promoter and Promoter Group of the Company has to be in dematerialization form by the quarter ended December 31, 2011. However, as on 31st March, 2019, 1562521 equity shares out of total promoter shareholding of 2175150 were held in dematerialized form, which is 71.84% of the total promoter holding.
 - b) As per Regulation 47 (1) read with Regulation 47 (3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Notice of Board Meeting and Financial Results of the Company shall publish in the newspaper simultaneously with the submission of the same to the stock exchanges. However, during the period under review, the Company has not submitted the copies of newspaper publication to stock exchange w.r.t.:-
 - i. Notice of Board Meeting held on 14.08.2018 & 14.02.2019.
 - ii. Financial Results of the Company for all the quarters.
4. I further report that:
- a) The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, Independent Directors and Women Director. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
 - b) Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
 - c) All decisions at the Board Meeting and Committee Meetings are carried out unanimously as recorded in the minutes of the Board of Directors or Committees of the Board, as the case may be.

5. I further report that based on the information received and records maintained there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.
6. I further report that during the audit period there has not been any such activity having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines etc.

**ANNEXURE-VIII****MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT**

1. This section shall include discussion on the following matters within the limits set by the listed entity's competitive position:

(a) INDUSTRY STRUCTURE AND DEVELOPMENTS

Edible oils are the dietary source for energy, growth and healthy functioning of human life. In addition, edible oils put high emphasize on tasty food, improving texture of food items, increasing palatability of food, flavor of food maintenance. Thus, edible oils constitute an important component of food expenditure in house-holds. Edible oils comprised a dominant component of food expenditure in Indian kitchens. India is appropriate for growing all major oil seed crops due to its agro-ecological diversity. India has a wide range of oilseeds crops grown in its different agro climatic zones. Groundnut, mustard/rapeseed, sesame, safflower, linseed, niger seed /castor are the major traditionally cultivated oilseeds. Soya bean and sunflower have also assumed importance in recent years. Coconut is most important amongst the plantation crops. Among the non-conventional oils, rice bran oil and cottonseed oil are the most important. The Indian edible oil industry is composed of some 15,000 oil mills, 600 solvent extraction units, 250 vanaspati units and about 400 refining units. India is one of the largest producers and consumers of edible oils in the world.

India has the fifth largest edible oil economy in the world which accounts for 4% of global vegetable oil production, 12% of global consumption and 21% of globally traded volumes. Even though India occupies a prominent position in the global oilseeds production more than 70% of India's edible oil demand is met by imports and it is projected that India may need to import 14 million tonnes of edible oil by the year 2020. Indian Oilseed production is about 25-26 million tonnes leading to 10.75 million Ton of edible oil. This deficit of 14 million tonnes in demand and supply is met by imports. Consumption of major edible oils in India stood at 24.10 million tonnes (MT) in 2017, and was valued at Rs. 1.4 trillion. Domestic production met only 30% of that demand, the rest was imported. The demand for edible oils in India has shown a steady growth at a CAGR (Compound annual growth rate) of 5%.

Considering the importance of oilseeds, and the high level of imports, the government should increase the oilseed production in the country through improvement in productivity of oilseed crops, improving the processing efficiency of oilseeds and oils and solving the problems facing domestic marketing of oils.

The government is also taking good number of steps for better promotion of domestic oil industry, various oilseeds development schemes to encourage cultivation of oilseeds and palm. The scientific research has given the country many edible oils free from cholesterol and good for heart. There has been some progress in increasing the area under cultivation and improving yields, but the growth has been slow. Average yield of various oilseeds crops in India, though improved, is lower than world average and significantly lower than other major oilseeds producing nations. As area under oilseeds has been almost stagnant during the last decade, there is little scope for extension of area given the competing demands. Thus yield rates need to be stepped up significantly in order to Increase the production of oilseeds.

(b) OPPORTUNITIES AND THREATS

The Indian edible oil Industry is highly fragmented with extreme variation in the consumption pattern of Indian consumers of edible oil. Apart from cooking, edible oils can be used for a number of other uses and have applications in different industries.

The edible oil market is experiencing a considerable growth owing to the rising consumer awareness about health benefits and strong economic growth. Western lifestyle is being increasingly adopted which has credited to be one of the biggest factors driving the market. The branded products are very widely accepted in India due to their high quality and reasonable price. The competition in the oil industry limits the price structure of different brand structure of edible oils.

The Edible oil market in India has witnessed a growth in recent years on account of rising demand for variants of edible oil fueled by expansion in the production. The surge in growth is majorly originated from growth in palm and soybean as a segment of the edible oil market. The growth in this segment has been largely led by the domestic factors such as growing preference for healthy oils, growth in population base, a shift in consumption pattern towards branded oil and favorable government policies.

One of the major factors hindering the growth of this market is fluctuating raw material price. Fluctuating price of raw material is one of the major challenges in the market. The fluctuation in the price is due to various reasons such as environmental factors, crop diseases, exchange rate difference of foreign currency and others. A fluctuation in the price of raw materials may have an adverse impact on the growth of the market during the forecast period. Availability of quality seeds of improved varieties and hybrids is grossly inadequate and is one of the major constraints in enhancing the oilseed production. Although there is enough breeder seed production of most oilseed crops, further seed multiplication through foundation and certified stages are the key constraints for availability of quality seed material.

(c) SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

Edible Oil Division

The Edible Oil business continues to account major part of the Company's turnover. The market environment continuous to be very competitive. The Company's products are well accepted in national market under the various brand names. Your company is leading regional player in edible oil and Vanaspati ghee, backed up with strong distribution network. Your Company faces intense competition from low priced and unscrupulous brands. The outlook of the industry is positive looking to the size of opportunity. The Company is hopeful that there would be healthy market growth over the next few years.

Ceramic Division

Your Company's ceramic division sale performance during the year is Rs. 2183.48 lacs. Company's ceramic products are well accepted in India. Your Company is hopeful of a healthy growth both in volume and value over next few years.

Wind Power Division

The project is eco-friendly as natural resources like wind is exploited for generation of electricity and there is no burning fuel and thus no pollution. Company has committed to sell 60% of electricity of generated to RVPNL, Jaipur and use balance electricity so generated for captive consumption by oil division at Alwar and Ceramic division at Jaipur by paying 2% as wheeling charges to RVPNL, Jaipur. At Jaisalmer quality wind is regularly available throughout the year so company is hopeful for good generation of electricity from wind farm at Jaisalmer.

(d) OUTLOOK

The Indian edible oil market is amongst the top five largest edible oil market of the world after the USA, China and Brazil. The long-term outlook of edible oil demand in India is favorable on expectation of increasing population, increase in per capita consumption which in turn would be driven by changing lifestyles, growing urbanization, and increasing proportion of middle-class population and steadily rising affluence levels. The Indian per capita consumption for edible oil is expected to grow from the current consumption levels of about 16kg to about 24 kg's by 2020 with a conservative CAGR of about 6%.

It's expected that various national and multinational players to dominate the edible oil market due to the increasing import dependence of the country in the near future. Rice bran and blended oil market are expected to be the fastest growing categories in the entire edible oil segment with Oils such as Mustard, Sunflower, Groundnut and Cottonseed tend to remain region specific in the near future with a moderate fluctuation in their prices.

(e) **RISK AND CONCERNS**

Owing to high import dependence, the edible oil prices in India are directly correlated to international oil price movements and currency movements that make profitability vulnerable to unexpected fluctuations.

The key determinants of business risk profile of the company are their ability to overcome the regulatory risk and agro-climatic conditions. Other operational factors include operating efficiency, product diversity, market position, and ability to secure raw material as well as the commodity price and forex-risk management systems.

One of the key risks that edible oil companies face is the risk arising out of volatility in prices of raw materials (oilseeds), crude edible oil and refined edible oil, which may be influenced by trends in international commodity prices, current fluctuations, demand-supply dynamics and macro-economic trends. The domestic edible oil prices are directly linked to the prices of imported palm and soybean oil due to heavy reliance on imports and their substitutability with other oil varieties. While mustard oil is almost entirely produced within the country, soyabean oil is imported in significant quantities (about 55%-70%). Palm oil is almost entirely imported in crude form (for refining in port-based refineries) as well as in refined form. Given the high volatility in international edible oil prices, domestic participants are exposed to the risk of unexpected squeeze on margins because of mismatch between the prices of raw materials and final products (which are both linked to domestic factors as well as global ones). With a significant portion of the consumed oil being imported, the foreign currency movements also have an impact on the profit margins of the company.

Companies with relatively higher inventory-holding periods owing to factors like processing, logistics etc. may face higher risk than the ones with faster turnaround as the inventory value can change rapidly in either direction. Thus, the overall profitability of market participants remains vulnerable to risks associated with commodity price volatility, forex movements, as well as demand-supply dynamics.

As the share of irrigated (by dams/canals/wells) area is low in India, most of the regions are dependent on monsoon rainfall. Even the irrigated areas are indirectly dependent on monsoons. Thus, production of oilseeds is negatively impacted in the years when there is a drought or deficient rainfall. However, the risk can be mitigated to some extent if the companies have a geographically diversified manufacturing presence across several states as the likelihood of monsoons failing simultaneously across states remains low to moderate. Also, the risk is further mitigated for players who have access to imported feedstock (either crude palm oil for refining or soyabean seeds for crushing, extraction and refining).

The profitability of edible oil companies is significantly influenced by regulatory changes and remains highly susceptible to the changes in the duty differential between import duties on crude and refined oil by the Government of India (GOI). Also, the profitability of these companies depends on the changes in the export tax levied by exporting countries, mainly Indonesia and Malaysia (that account for most of palm oil imports). To counter the risk the Company is more focusing on raw material management, supply chain management, total quality management, cost reduction and control.

(f) **INTERNAL CONTROL SYSTEMS & THEIR ADEQUACY**

Company's internal control systems are commensurate with the nature of its business and the size and complexity of its operations. These systems are designed to ensure that all the assets of the company are safeguarded and protected against any loss and that all the transactions are properly authorized recorded and reported.

The company has an internal audit function, which is empowered to examine the adequacy and compliance with policies, plans and statutory requirements. It is also responsible for assessing and improving the effectiveness of risk management, control and governance process.

(g) DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the period under review, on standalone basis, your Company has achieved a total Turnover of Rs. 1,22,590.28 Lakhs as against Rs. 87,882.25 Lakhs in the previous financial year. The Profit before finance cost, depreciation and tax is Rs. 2752.51 Lakhs, Profit after Tax is Rs. 1273.13 Lakhs and Total Comprehensive Income is Rs. 1293.58 Lakhs as compare to Rs. 2029.93 Lakhs, Rs. 1026.36 Lakhs and Rs. 1043.41 Lakhs respectively in the previous financial year. During the year the turnover and Profit after Tax of the Company has increased by 39.49% and 24.04% respectively.

(h) MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

The company considers its human resources as the cornerstone. Congenial and safe work atmosphere, appropriate recognition and rewards, constant communication, focus on meeting customer needs and change management through training are the hallmarks for development of human resources of the company. Every employee is aware of the challenges posed by the current economic environment. Employee morale has remained high even during difficult times. INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF VIJAY SOLVEX LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Vijay Solvex Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How the key audit matters was addressed
<p>Litigations – Contingencies</p> <p>The Company has ongoing litigations with various authorities and third parties which could have a significant impact on the results, if the potential exposures were to materialize.</p> <p>The outcome of such litigation is uncertain and management has assessed the Litigations/ Assessments status and has applied judgments in classifying/ taking appropriate actions as required under ‘Ind AS 37 - Provisions, Contingent Liabilities, and Contingent Assets’.</p> <p>(Refer Note 35 to the Standalone Financial Statements)</p>	<p>Principal Audit Procedures</p> <p>-Understanding the current status of the litigations/tax assessments.</p> <p>-Examining communication received from various Tax Authorities/ Judicial forums and follow up action thereon.</p> <p>- Review and analysis of evaluation of the contentions of the Company through discussions, collection of details of the subject matter under consideration and the likely outcome.</p>

<p>Revenue Recognition</p> <p>Revenue from the sale of goods (hereinafter referred to as “Revenue”) is recognized when the Company performs its obligation to its customers and the amount of revenue can be measured reliably, recovery of the consideration is probable and when the control over the same is transferred to the customer, which is mainly upon delivery.</p> <p>The timing of revenue recognition is relevant to the reported performance of the Company. Information Other than the Standalone Financial Statements and Auditor’s Report thereon

The Company’s management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Corporate Governance and Shareholder’s Information, but does not include the standalone financial statements and our auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard, as for the year ended 31.03.2019 the other information has not yet been prepared and not yet been approved by Board of directors.

Management’s Responsibility for the Standalone Financial Statements

The Company’s management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.

- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with rule 7 of companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”.
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 35 to the standalone financial statements;
 - ii The company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - iii There were no amount required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”) issued by the Central Government in terms of Section 143(11) of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order.

**Annexure - A to the Independent Auditors' Report**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Vijay Solvex Limited ("the Company") as of 31st March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial

reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH' 19****CORPORATE AND GENERAL INFORMATION**

Vijay Solvex Limited ("the Company") is domiciled and incorporated in India and its equity shares are listed at Bombay Stock Exchange(BSE). The registered office of Company is Situated at BHAGWATI SADAN, SWAMI DAYANAND MARG, ALWAR (RAJASTHAN). The Company is a leading manufacturer/producer of Edible Oil and vanaspati ghee. The company is also diversified into ceramics products and wind power.

The Standalone financial statements of the company for the year ended 31st March 2019 were approved and authorized for issue by board of directors in their meeting held on 30-5-2019.

SIGNIFICANT ACCOUNTING POLICIES**(1) Basis of Preparation**

These Standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act 2013("The Act"),the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act.

The Standalone financial statements of the company are consistently prepared and presented under historical cost convention on an accrual basis in accordance with Ind AS except for certain financial assets and liabilities that are measured at fair values.

The company's functional currency and presentation currency is Indian Rupees (INR). All amounts disclosed in the Standalone financial statements and notes are in INR except otherwise indicated. The Financial statement are presented in indian Rupees rounded off to the nearest rupees in Lacs except otherwise indicated.

(2) Classification of Assets and Liabilities into current and Non-Current

The Company presents its assets and liabilities in the Balance Sheet based on current/ non-current classification.

As asset is treated as current when it is:

- a) expected to be realised or intended to be sold or consumed in normal operating cycle;
- b) held primarily for the purpose of trading;
- c) expected to be realised within twelve months after the reporting period; or
- d) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when :

- a) it is expected to be settled in normal operating cycle;
- b) it is held primarily for the purpose of trading;
- c) it is due to be settled within twelve months after the reporting period; or
- d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the company has ascertained its operating cycle being a period within twelve months for the purpose of current and non-current classification of assets and liabilities.

(3) Use of judgements, estimates and assumptions

The preparation of the company's financial statements required management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosures of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment in the future periods in the carrying amount of assets or liabilities affected.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of reporting period that may have significant risk of causing material adjustments to the carrying amounts of assets and liabilities with in :-

a) Useful life of property, plant and equipment and intangible assets:- The company has estimated useful life of the Property, Plant and Equipment as specified in Schedule II to Companies Act 2013. However, the actual useful life for individual equipments could turn out to be different, there could be technology changes, breakdown, unexpected failure leading to impairment or complete discard. Alternately, the equipment may continue to provide useful service well beyond the useful life assumed.

b) Fair value measurement of financial instruments:- When the fair values of financial assets and financial liabilities cannot be measured based on quoted process in active market, the fair value is measured using valuation techniques including book value and discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not possible, a degree of judgement is required in establishing fair values.

c) Impairment of financial and non-financial assets:- The impairment provisions for the financial assets are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the input for the impairment calculations, based on Company's past history, existing market conditions, technology, economic developments as well as forward looking estimates at the end of each reporting period.

d) Taxes:- Taxes have been paid / provided, exemptions availed, allowances considered etc. are based on the extent laws and the company's interpretation of the same based on the legal advice received wherever required. These could differ in the view taken by the authorities, clarifications issued subsequently by the government and court, amendments to statutes by the government etc.

e) Defined benefit plans:- The cost of defined benefit plans and other post-employment benefits plans and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future.

f) Provisions:- The Company makes provisions for leave encashment and gratuity, based on report received from the independent actuary. These valuation reports use complex valuation models using not only the inputs provided by the Company but also various other economic variables. Considerable judgement is involved in the process.

g) Contingencies:- A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligations at the end of the reporting period. However, the actual liability could be considerably different.

(4) Property, plant and equipment

(i) Property, plant and equipment situated in India comprising land other assets namely Building, Plant & Machinery, Office equipment etc. The company has elected to continue with the carrying value as its deemed cost on 1.4.2016 measured as per previous GAAP and use that carrying value as its deemed cost as on the transition date. The cost of Tangible assets comprises its purchase price, borrowing cost, any other cost directly attributable to bringing the assets into present location and condition necessary for it to be capable of operating in the manner intended by the Management, initial estimation of any de - commissioning obligations and finance cost.

(ii) Depreciation

Depreciation on Fixed Assets is provided on Straight Line Method over their useful lives and in the manner specified in Schedule II of the Companies Act, 2013. Property, Plant & Equipment which are added/disposed off during the year the depreciation is provided on pro rata basis with reference to month of addition/deletion.

(iii) Component Accounting

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred. The present value of the

expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

(iv) Expenditure during construction/erection period is included under Capital Work-in-Progress and is allocated to the respective fixed assets on completion of construction/ erection.

(v) Property, plant and equipment are eliminated from financial statement, either on disposal or when retired from active use. Losses arising in the case of retirement of Property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognized in Statement of Profit and Loss in the year of occurrence.

(vi) The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(5) Investment properties

Investment properties consist of investments in land and buildings that are held to earn rental income or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business. Investment property is stated at cost less accumulated depreciation and impairment losses. Depreciation on building is provided over the estimated useful lives as specified in Schedule II to Companies Act, 2013. The Residual Life, useful lives and depreciation method of investment properties are reviewed, and adjusted on Prospective basis as appropriate, at each financial year end. The effects of any revision are included in the Statement of Profit and Loss when the changes arise.

(6) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Intangible Assets are stated at cost which includes any directly attributable expenditure on making the asset ready for its intended use. Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Intangible assets are amortised on a systematic basis over period useful life. For the transition to IND AS, The company has elected to continue with the carrying value of all its intangible assets recognised as of April 1, 2016 measured as the previous GAAP and used that carrying value as deemed cost as of the transition date.

(7) Research and development cost

Research Cost:

Revenue expenditure on research is expensed under the respective heads of accounts in the period in which it is incurred.

Development Cost:

Development expenditure on new product is capitalised as intangible asset, if technical and commercial feasibility as per IND AS 38 is demonstrated.

(8) Inventories

Inventories are stated at lower of cost and net realisable value. Net realizable value is the estimated selling price in the ordinary course of business less estimated costs of completion and selling costs. The cost is computed on FIFO basis.

Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Conversion cost includes direct material, labour and allocable material and manufacturing overhead based on normal operating capacity

(9) Cash and cash equivalents

a) Cash and cash equivalents are financial assets. Cash and cash equivalents consist of cash and short-term highly liquid investments that are readily convertible to cash with original maturities of three months or less at the time of purchase and are carried at cost plus accrued interest.

**b) Cash Flow Statement**

Cash Flow are reported using indirect method, whereby profit for the year is adjusted for effects of transactions of non cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the company are segregated.

c) Bank Balances Other than above

Dividend Escrow account balance, deposit with bank as margin money for guarantees issued by bank, deposits kept as security deposit for statutory authorities are accounted as bank balance other than cash and cash equivalent.

(10) Financial instruments

A financial instrument is any contract that at the same time gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognized as soon as the company becomes a contracting party to the financial instrument. Financial instruments stated as financial assets or financial liabilities are generally not offset; they are only offset when a legal right to set-off exists at that time and settlement on a net basis is intended.

A. Financial assets:

Financial assets include trade receivable, cash and cash equivalents, derivative financial assets and also the equity / debt instruments held. Initially all financial assets are recognised at amortised cost or fair value through Other Comprehensive Income or fair value through Statement of Profit or Loss, depending on its business model for those financial assets and their contractual cash flow characteristics. Subsequently, based on initial recognition/ classification, where assets are measured at fair value, gain and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

Trade receivables:

Trade receivables are recognised initially at fair value and subsequently measured at amortized cost less credit loss/impairment allowances. Receivables that do not bear interest or bear below market interest rates and have an expected term of more than one year are discounted with the discount subsequently amortized to interest income over the term of the receivable. Impairment is made on the expected credit losses, which are the present value of the cash deficits over the expected life of receivables. The estimated impairment losses are recognised in the Statement of Profit and Loss. Subsequent changes in assessment of impairment are recognized in the Statement of Profit and Loss as changes in estimates. The company makes provision for expected credit loss against trade receivables based on the simplified approach (i.e. the loss allowance is measured as the amount equal to lifetime expected credit losses).

Loans & other financial assets

Loans and other financial assets are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and other financial assets are measured at amortized cost using the effective interest method, less any impairment losses.

Investment in equity shares:

Investment in equity securities are initially measured at fair value. Any subsequent fair value gain or loss for investments held for investment is recognized through Other Comprehensive Income. Any subsequent gain or loss for investment held for trading are recognized through Statement of Profit and Loss.

Investment in associates, joint venture and subsidiaries:

The Company's investment in subsidiaries, associates and joint venture are carried at cost except where impairment loss recognised.

De-recognition of financial assets

The company de-recognises a financial assets only when the contractual rights to the cash flows from the assets expire or it transfers the financial assets and substantially all risks and rewards of ownership of the assets to another entity. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred assets, the company recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial assets. The Company continues to recognise the financial assets and also recognises a collateralised borrowing for the proceeds received.

B. Financial liabilities:

Financial liabilities such as loans and borrowings and other payables are recognized initially on the trade date, which is the date that the Company becomes a party to the contractual terms of the instrument. Financial liabilities other than fair valued through profit and loss are recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method. Transaction costs of financial liability carried at fair value through profit or loss is expensed in profit or loss.

Financial liabilities at fair value through profit or loss:

It include financial liabilities held for trading and are designated such at initial recognition. Financial liabilities are held for trading if they are incurred for the purpose of repurchasing in near term and also include Derivatives that are not part of an effective hedge accounting in accordance with IND AS 109 , classified as “held for trading” and carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities measured at amortised cost

Post recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method ("EIR"). Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

Loans and Borrowings

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Trade and other payables:

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. Trade accounts payable and other non-derivative financial liabilities are in general measured at amortized cost using the effective interest method. Finance charges, including premiums payable on redemption or settlement, are periodically accrued using the effective interest method and increase the liabilities' carrying amounts unless they have already been settled in the period in which they were incurred.

De-recognition of financial liabilities

The company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

Derivative financial instruments

In the ordinary course of business, the company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange rate fluctuations. The instruments are confined principally to forward exchange contracts.

Derivative are initially accounted for and measured at fair value from the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Financial guarantee contracts:

As per IND AS -109 “Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument.”

**Initial recognition**

The date the company becomes a party to the irrevocable commitment is considered to be the date of initial recognition and Financial guarantee contracts are recognised as liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortization.

(11) Impairment of non-financial assets

At each reporting date, the company assesses whether there is any indication that a non-financial asset may be impaired. If any such indication exists, the recoverable amount of the non-financial asset is estimated in order to determine the extent of the impairment loss, if any. Recoverable amount is determined:

- In the case of an individual asset, at the higher of the Fair Value less cost to sell and the value in use: and
- In the case of cash generating unit (a group of assets that generates identified, independent cash flows) at the higher of cash generating unit's fair value less cost to sell and the value in use.

Where it is not possible to estimate the recoverable amount of an individual non-financial asset, the company estimates the recoverable amount of the smallest cash generating unit to which the non-financial asset belongs. The recoverable amount is the higher of an asset's or cash generating unit's fair value less costs of disposal and its value in use. If the recoverable amount of a non-financial asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the non-financial asset or cash generating unit is reduced to its recoverable amount. Impairment losses are recognized immediately in the statement of Profit and Loss. Where an impairment loss subsequently reverses, the carrying amount of the non-financial asset or cash generating unit is increased to the revised estimate of its recoverable amount. However, this increased amount cannot exceed the carrying amount that would have been determined had no impairment loss been recognized for that non-financial asset or cash generating unit in prior periods. A reversal of an impairment loss is recognized immediately in the statement of Profit and Loss.

(12) Foreign currency transactions

(i) The functional and reporting currency of company is INR.

(ii) Transaction and Balances

Currency Transactions denominated in foreign currencies are initially recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities denominated in such currencies are retranslated at the rates prevailing on the balance sheet date. Profit and losses arising on exchange are included in the net profit or loss for the period. Pursuant to exemption given under IND AS 101 the company has continued the policy for accounting for amortization of exchange differences arising from translation of long-term foreign currency monetary items over the tenure of loan. Non-Monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to the translation difference.

(13) Revenue recognition

The company has applied Ind AS 115 'Revenue from contracts with Customers' with effect from 1st April 2018. In accordance with Ind AS 115, the company recognises revenue from sale of products and services at a time when performance obligation is satisfied and upon transfer of control of promised products or services to customer in an amount that reflects the consideration the company expects to receive in exchange for their products or services. The company derives revenue primarily from sale of manufactured goods and traded goods. The company disaggregates the revenue based on nature of products/Geography.

• Dividend income:

Dividend income is accounted for when the right to receive the same is established, which is generally when shareholders approve the dividend.

• Interest income:

Interest income is recognised on effective interest method taking into account the amount outstanding and the rate applicable.

(14) Employees Benefits

(a) Short term employee Benefit:

All employees' benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus are recognized during the period in which the employee renders related service.

(b) Defined Contribution Plan:

Contributions to the Employees' Provident Fund and Employee's State Insurance are recognized as Defined Contribution Plan and charged as expenses in the year in which the employees render the services.

(c) Defined Benefit Plan:

The Leave Encashment and Gratuity are defined benefit plans. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at each balance sheet date, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. Re-measurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not classified to the statement of profit and loss in subsequent periods. Past Service cost is recognised in the statement of profit and loss in the period of plan amendment.

The Company recognises the following changes in the net defined benefit obligation under employee benefit expenses in the statement of profit and loss.

- Service costs comprising current service costs, gains and losses on curtailments and non-routine Settlements.
- Net interest income or expense.

(d) Long term Employee Benefit:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date.

(e) Termination benefits:

Termination benefits are recognised as an expense in the period in which they are incurred.

The Company shall recognise a liability and expense for termination benefits at the earlier of the following dates:

- (i) when the entity can no longer withdraw the offer of those benefits; and
- (ii) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of termination benefits.

(15) Borrowing costs

(a) Borrowing costs that are specifically attributable to the acquisition, construction, or production of a qualifying asset are capitalised as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.

(b) For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

(c) All other borrowing costs are recognised as expense in the period in which they are incurred.

**(16) Leases**

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

(a) Finance Lease

Finance Lease that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's policy on borrowing costs.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

(b) Operating Lease

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Payments/receipts under operating lease are recorded in the Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

(17) Taxes on income

Income Tax expenses comprise current tax expenses and the net change in the deferred tax asset or liabilities during the year. Current and Deferred tax are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity respectively.

Current Tax

The Company provides current tax based on the provisions of the Income Tax Act, 1961 applicable to the Company.

Deferred Tax

Deferred tax is recognised using the Balance Sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(18) Provisions, Contingent liabilities, Contingent assets and Commitments

(a) General

The Company recognizes provisions for liabilities and probable losses that have been incurred when it has a present legal or constructive obligation as a result of past events and it is probable that the Company will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a financing cost.

Contingent liability is disclosed in the case of:

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation:
 - A present obligation arising from past events, when no reliable estimate is possible:
 - A possible obligation arising from past events, unless the probability of outflow of resources is remote.
- Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(b) Other Litigation claims:

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

(c) Onerous contracts:

Provisions for onerous contracts are recorded in the statements of operations when it becomes known that the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received.

(19) Exceptional Items

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the company is such that its disclosure improves the understanding of the performance of the company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

(20) Earnings per share

Basic Earnings per share is calculated by the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. There are no diluted earning per share as there are no dilutive potential equity shares.

(21) Segment accounting

The Operating segment of the company is Edible oils, Ceramics and Wind Power generation and the same have been evaluated on management approach as defined in IND AS-108 "Operating Segment". The company accordingly reports its financials under three segments.

(22) Financial statement classification

Certain line items on the balance sheet and in the statement of Profit and Loss have been combined. These items are disclosed separately in the Notes to the financial statements. Certain reclassifications have been made to the prior year presentation to conform to that of the current year. In general the company classifies assets and liabilities as current when they are expected to be realized or settled within twelve months after the balance sheet date.

**(23) Fair value measurement**

The Company measures financial instruments such as derivatives and certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability.

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

- **Level 1-** Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- **Level 2-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- **Level 3-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(24) Non-current assets held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups are classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a complete sale within one year from the date of classification.

Discontinued operations are excluded from the results of continuing operations are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

Assets and liabilities classified as held for distribution are presented separately from other assets and liabilities in the balance sheet.

A disposal group qualifies as discontinued operation if it is a component of the Company that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,
- Is part of a single co-ordinate plan to disclose of a separate major line of business or geographical area of operations

Or

- Is a subsidiary acquired exclusively with a view to resale.

An entity shall not depreciate (or amortise) a non-current asset while it is classified as held for sale or while it is part of a disposal group classified as held for sale.

- Order dated 14.03.2012 passed by Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur inter alia in S.B. Civil Misc. Appeal No. 2218 of 2011 in respect of partition suit was set aside by the Hon'ble Supreme Court vide order dated 04.08.2014 and the matter was remitted back to Hon'ble High Court of Judicature of Rajasthan for its fresh consideration after hearing the parties. Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, after hearing the parties, passed an order dated 06.04.2015 partially setting aside Order dated 10.02.2011 passed by the Court of Ld. ADJ, Jaipur. The order dated 06.04.2015 passed by Hon'ble High Court of Judicature of Rajasthan was challenged before the Hon'ble Supreme Court of India by the original Plaintiffs by filing SLP (C) No.11870 of 2015 and Hon'ble Supreme Court of India dismissed the SLP vide order dated 29.01.2019. After dismissal of the SLP filed by Original Plaintiffs there is no restraint order against the Company for transferring or alienating its properties or creating charge over the properties of the Company.
- The cases filed against the Company under Section 397-398 of the Companies Act, 1956 are still sub-judice before the Hon'ble National Company Law Tribunal (erstwhile Company Law Board), Jaipur/Kolkata which are yet to be heard finally by the NCLT.

- The company owns 247500 equity shares of Saurabh Agrotech Pvt. Ltd., which was illegally transferred. This illegality has been challenged by the Company before the National Company Law Tribunal (NCLT) under Section 111 of the Companies Act, 1956. Since the case is sub-judice before NCLT and Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, the holding of such investment is continued to be shown in the books of the company.
- Presently, the Company is registered owner of SCOOTER trademark/device/logo and copyright holder for the artwork of SCOOTER Wavy device which is registered with Registrar of Trade Mark and Copyright. The Company is taking appropriate legal action against all the persons who are infringing its trademark and copyright. The Company is also defending its right before the Hon'ble Courts and Tribunals, wherever the challenges against use of 'Scooter' and /or any other intellectual property rights of the Company have been made.
- Deputy Director, Directorate of Enforcement, Patna filed a complaint on 06.12.2018 under Section 5(5) of the Prevention of Money Laundering Act, 2002 (PMLA) before Adjudicating Authority against the Company on the basis of provisional attachment OC No. 1064/2018. The Hon'ble Adjudicating Authority (PMLA) vide its order dated 02.05.2019 confirmed the provisional attachment order and allowed the complaint filed by Deputy Director, Directorate of Enforcement, Patna. As per the order, an Appeal against the above said order lies to Hon'ble Appellate Tribunal, PMLA, New Delhi under section 26 to the PMLA Act. The Appeal may be filed within a period of 45 days from the date of receipt of the order. The Company is under process to challenge the order before Hon'ble Appellate Tribunal, PMLA, New Delhi within the statutory period as mentioned above.

The Board is hopeful that the pending matters would be disposed of in favour of the Company.

3. Contribution by Employer	N.A.	N.A.
4. Actual Benefit Paid	N.A.	N.A.
5. Actual gain/(Losses)	N.A.	N.A.
6. Plan Assets at the end of year	N.A.	N.A.
6) Actuarial Assumptions		
1. Discount rate	7.50%	7.70%
2. Expected rate of return on plan assets	N.A.	N.A.
3. Mortality	IALM(2006-08)	IALM(2006-08)
4. Salary Escalator	8.00%	8.00%

37.3 **Risk Factors:** Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20, 00,000).

37.4 Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

Particulars	31-Mar-2019		31-Mar-2018	
	Decrease	Increase	Decrease	Increase
Defined Benefit Obligation (Base)	25074818	23783324	23335219	22115486
	(5.8%)	(-5.2%)	(5.8%)	(-5.2%)
Salary Growth Rate (- / + 1%)	23878113	26376162	22184861	24602989
(% change compared to base due to sensitivity)	(-4.8%)	(5.2%)	(-4.9%)	(5.4%)
Attrition Rate (- / + 50%of attrition rates)	25099050	25051704	23350473	23320774
(% change compared to base due to sensitivity)	(0.1%)	(-0.1%)	(0.1%)	(-0.1%)
Mortality Rate (- / + 10% of mortality rates)	25075784	25073856	23335765	23334677
(% change compared to base due to sensitivity)	(0.0%)	(0.0%)	(0.0%)	(0.0%)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated.

INDEPENDENT AUDITOR’S REPORT

TO THE MEMBERS OF VIJAY SOLVEX LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Vijay Solvex Limited (“the Company”) and its associates (collectively referred to as “the Group”), which comprise the Consolidated Balance Sheet as at March 31, 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the “Act”) in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (“Ind AS”) and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2019, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How the key audit matters was addressed
<p>Litigations – Contingencies</p> <p>The Company has ongoing litigations with various authorities and third parties which could have a significant impact on the results, if the potential exposures were to materialize.</p> <p>The outcome of such litigation is uncertain and management has assessed the Litigations/ Assessments status and has applied judgments in classifying/ taking appropriate actions as required under ‘Ind AS 37 - Provisions, Contingent Liabilities, and Contingent Assets’.</p> <p>(Refer Note 35 to the Consolidated Financial Statements)</p>	<p>Principal Audit Procedures</p> <p>-Understanding the current status of the litigations/tax assessments.</p> <p>-Examining communication received from various Tax Authorities/ Judicial forums and follow up action thereon.</p> <p>- Review and analysis of evaluation of the contentions of the Company through discussions, collection of details of the subject matter under consideration and the likely outcome.</p>

Revenue Recognition

Revenue from the sale of goods (hereinafter referred to as “Revenue”) is recognized when the Company performs its obligation to its customers and the amount of revenue can be measured reliably, recovery of the consideration is probable and when the control over the same is transferred to the customer, which is mainly upon delivery.

The timing of revenue recognition is relevant to the reported performance of the Company. The management considers revenue as a key measure for evaluation of performance.

Principal Audit Procedures

- Assessing the appropriateness of the Company’s revenue recognition accounting policies in line with Ind AS 115 (“Revenue from Contracts with Customers”) and testing thereof.
- Evaluating the design and implementation of Company’s controls in respect of revenue recognition.

Information Other than the Consolidated Financial Statements and Auditor’s Report Thereon

The Company’s management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Corporate Governance and Shareholder’s Information, but does not include the consolidated financial statements and our auditor’s report thereon

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management’s Responsibility for the Consolidated Financial Statements

The Company’s management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India . The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the directors of company as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the companies in group which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

Annexure - A to the Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2019, we have audited the internal financial controls over financial reporting of Vijay Solvex Limited and its Associates companies, which is company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the group are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the group, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the auditors of the other group company is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting on the group.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal financial Controls over financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial

reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its Associates which is a Company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the company and its Associates which are incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3) of the Act on the adequacy and operating effectiveness on the internal financial controls over financial reporting in so far as it relates to associates companies, which is a company incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modifies in respect of the above matters.

As asset is treated as current when it is:

- a) expected to be realised or intended to be sold or consumed in normal operating cycle;
- b) held primarily for the purpose of trading;
- c) expected to be realised within twelve months after the reporting period; or
- d) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when :

- a) it is expected to be settled in normal operating cycle;
- b) it is held primarily for the purpose of trading;
- c) it is due to be settled within twelve months after the reporting period; or
- d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the company has ascertained its operating cycle being a period within twelve months for the purpose of current and non-current classification of assets and liabilities.

(4) Use of judgements, estimates and assumptions

The preparation of the company's financial statements required management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosures of contingent liabilities. Uncertainty about these assumptions and estimates could

result in outcomes that require a material adjustment in the future periods in the carrying amount of assets or liabilities affected.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of reporting period that may have significant risk of causing material adjustments to the carrying amounts of assets and liabilities with in :-

a) Useful life of property, plant and equipment and intangible assets:- The company has estimated useful life of the Property, Plant and Equipment as specified in Schedule II to Companies Act 2013. However, the actual useful life for individual equipments could turn out to be different, there could be technology changes, breakdown, unexpected failure leading to impairment or complete discard. Alternately, the equipment may continue to provide useful service well beyond the useful life assumed.

b) Fair value measurement of financial instruments:- When the fair values of financial assets and financial liabilities cannot be measured based on quoted process in active market, the fair value is measured using valuation techniques including book value and discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not possible, a degree of judgement is required in establishing fair values.

c) Impairment of financial and non-financial assets:- The impairment provisions for the financial assets are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the input for the impairment calculations, based on Company's past history, existing market conditions, technology, economic developments as well as forward looking estimates at the end of each reporting period.

d) Taxes:- Taxes have been paid / provided, exemptions availed, allowances considered etc. are based on the extent laws and the company's interpretation of the same based on the legal advice received wherever required. These could differ in the view taken by the authorities, clarifications issued subsequently by the government and court, amendments to statutes by the government etc.

e) Defined benefit plans:- The cost of defined benefit plans and other post-employment benefits plans and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future.

f) Provisions:- The Company makes provisions for leave encashment and gratuity, based on report received from the independent actuary. These valuation reports use complex valuation models using not only the inputs provided by the Company but also various other economic variables. Considerable judgement is involved in the process.

g) Contingencies:- A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligations at the end of the reporting period. However, the actual liability could be considerably different.

(5) Property, plant and equipment

(i) Property, plant and equipment situated in India comprising land other assets namely Building, Plant & Machinery, Office equipment etc. The company has elected to continue with the carrying value as its deemed cost on 1.4.2016 measured as per previous GAAP and use that carrying value as its deemed cost as on the transition date. The cost of Tangible assets comprises its purchase price, borrowing cost, any other cost directly attributable to bringing the assets into present location and condition necessary for it to be capable of operating in the manner intended by the Management, initial estimation of any de - commissioning obligations and finance cost.

(ii) Depreciation

Depreciation on Fixed Assets is provided on Straight Line Method over their useful lives and in the manner specified in Schedule II of the Companies Act,2013. Property, Plant & Equipment which are added/disposed off during the year the depreciation is provided on pro rata basis with reference to month of addition/deletion.

(iii) Component Accounting

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

(iv) Expenditure during construction/erection period is included under Capital Work-in-Progress and is allocated to the respective fixed assets on completion of construction/ erection.

(v) Property, plant and equipment are eliminated from financial statement, either on disposal or when retired from active use. Losses arising in the case of retirement of Property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognized in Statement of Profit and Loss in the year of occurrence.

(vi) The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(6) Investment properties

Investment properties consist of investments in land and buildings that are held to earn rental income or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business. Investment property is stated at cost less accumulated depreciation and impairment losses. Depreciation on building is provided over the estimated useful lives as specified in Schedule II to Companies Act, 2013. The Residual Life, useful lives and depreciation method of investment properties are reviewed, and adjusted on Prospective basis as appropriate, at each financial year end. The effects of any revision are included in the Statement of Profit and Loss when the changes arise.

(7) Intangible assets

Intangibles assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Intangible Assets are stated at cost which includes any directly attributable expenditure on making the asset ready for its intended use. Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Intangible assets are amortised on a systematic basis over period useful life. For the transition to IND AS, The company has elected to continue with the carrying value of all its intangible assets recognised as of April 1, 2016 measured as the previous GAAP and used that carrying value as deemed cost as of the transition date.

(8) Research and development cost

Research Cost:

Revenue expenditure on research is expensed under the respective heads of accounts in the period in which it is incurred.

Development Cost:

Development expenditure on new product is capitalised as intangible asset, if technical and commercial feasibility as per IND AS 38 is demonstrated.

(9) Inventories

Inventories are stated at lower of cost and net realisable value. Net realizable value is the estimated selling price in the ordinary course of business less estimated costs of completion and selling costs. The cost is computed on FIFO basis.

Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Conversion cost includes direct material, labour and allocable material and manufacturing overhead based on normal operating capacity

**(10) Cash and cash equivalents**

a) Cash and cash equivalents are financial assets. Cash and cash equivalents consist of cash and short-term highly liquid investments that are readily convertible to cash with original maturities of three months or less at the time of purchase and are carried at cost plus accrued interest.

b) Cash Flow Statement

Cash Flow are reported using indirect method, whereby profit for the year is adjusted for effects of transactions of non cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the company are segregated.

c) Bank Balances Other than above

Dividend Escrow account balance, deposit with bank as margin money for guarantees issued by bank, deposits kept as security deposit for statutory authorities are accounted as bank balance other than cash and cash equivalent.

(11) Financial instruments

A financial instrument is any contract that at the same time gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments are recognized as soon as the company becomes a contracting party to the financial instrument. Financial instruments stated as financial assets or financial liabilities are generally not offset; they are only offset when a legal right to set-off exists at that time and settlement on a net basis is intended.

A. Financial assets:

Financial assets include trade receivable, cash and cash equivalents, derivative financial assets and also the equity / debt instruments held. Initially all financial assets are recognised at amortised cost or fair value through Other Comprehensive Income or fair value through Statement of Profit or Loss, depending on its business model for those financial assets and their contractual cash flow characteristics. Subsequently, based on initial recognition/classification, where assets are measured at fair value, gain and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

Trade receivables:

Trade receivables are recognised initially at fair value and subsequently measured at amortized cost less credit loss/impairment allowances. Receivables that do not bear interest or bear below market interest rates and have an expected term of more than one year are discounted with the discount subsequently amortized to interest income over the term of the receivable. Impairment is made on the expected credit losses, which are the present value of the cash deficits over the expected life of receivables. The estimated impairment losses are recognised in the Statement of Profit and Loss. Subsequent changes in assessment of impairment are recognized in the Statement of Profit and Loss as changes in estimates. The company makes provision for expected credit loss against trade receivables based on the simplified approach (i.e. the loss allowance is measured as the amount equal to lifetime expected credit losses).

Loans & other financial assets

Loans and other financial assets are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and other financial assets are measured at amortized cost using the effective interest method, less any impairment losses.

Investment in equity shares:

Investment in equity securities are initially measured at fair value. Any subsequent fair value gain or loss for investments held for investment is recognized through Other Comprehensive Income. Any subsequent gain or loss for investment held for trading are recognized through Statement of Profit and Loss.

Investment in associates, joint venture and subsidiaries:

The Company's investment in subsidiaries, associates and joint venture are carried at cost except where impairment loss recognised.

**De-recognition of financial assets**

The company de-recognises a financial assets only when the contractual rights to the cash flows from the assets expire or it transfers the financial assets and substantially all risks and rewards of ownership of the assets to another entity. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred assets, the company recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial assets. The Company continues to recognise the financial assets and also recognises a collateralised borrowing for the proceeds received.

B. Financial liabilities:

Financial liabilities such as loans and borrowings and other payables are recognized initially on the trade date, which is the date that the Company becomes a party to the contractual terms of the instrument. Financial liabilities other than fair valued through profit and loss are recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method. Transaction costs of financial liability carried at fair value through profit or loss is expensed in profit or loss.

Financial liabilities at fair value through profit or loss:

It include financial liabilities held for trading and are designated such at initial recognition. Financial liabilities are held for trading if they are incurred for the purpose of repurchasing in near term and also include Derivatives that are not part of an effective hedge accounting in accordance with IND AS 109 , classified as “held for trading” and carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities measured at amortised cost

Post recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method ("EIR"). Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

Loans and Borrowings

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Trade and other payables:

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. Trade accounts payable and other non-derivative financial liabilities are in general measured at amortized cost using the effective interest method. Finance charges, including premiums payable on redemption or settlement, are periodically accrued using the effective interest method and increase the liabilities' carrying amounts unless they have already been settled in the period in which they were incurred.

De-recognition of financial liabilities

The company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

Derivative financial instruments

In the ordinary course of business, the company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange rate fluctuations. The instruments are confined principally to forward exchange contracts.

Derivative are initially accounted for and measured at fair value from the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

**Financial guarantee contracts:**

As per IND AS -109 “Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument.”

Initial recognition

The date the company becomes a party to the irrevocable commitment is considered to be the date of initial recognition and Financial guarantee contracts are recognised as liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortization.

(12) Impairment of non-financial assets

At each reporting date, the company assesses whether there is any indication that a non-financial asset may be impaired. If any such indication exists, the recoverable amount of the non-financial asset is estimated in order to determine the extent of the impairment loss, if any. Recoverable amount is determined:

- In the case of an individual asset, at the higher of the Fair Value less cost to sell and the value in use: and
- In the case of cash generating unit (a group of assets that generates identified, independent cash flows) at the higher of cash generating unit's fair value less cost to sell and the value in use.

Where it is not possible to estimate the recoverable amount of an individual non-financial asset, the company estimates the recoverable amount of the smallest cash generating unit to which the non-financial asset belongs. The recoverable amount is the higher of an asset's or cash generating unit's fair value less costs of disposal and its value in use. If the recoverable amount of a non-financial asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the non-financial asset or cash generating unit is reduced to its recoverable amount. Impairment losses are recognized immediately in the statement of Profit and Loss. Where an impairment loss subsequently reverses, the carrying amount of the non-financial asset or cash generating unit is increased to the revised estimate of its recoverable amount. However, this increased amount cannot exceed the carrying amount that would have been determined had no impairment loss been recognized for that non-financial asset or cash generating unit in prior periods. A reversal of an impairment loss is recognized immediately in the statement of Profit and Loss.

(13) Foreign currency transactions

(i) The functional and reporting currency of company is INR.

(ii) Transaction and Balances

Currency Transactions denominated in foreign currencies are initially recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities denominated in such currencies are retranslated at the rates prevailing on the balance sheet date. Profit and losses arising on exchange are included in the net profit or loss for the period. Pursuant to exemption given under IND AS 101 the company has continued the policy for accounting for amortization of exchange differences arising from translation of long-term foreign currency monetary items over the tenure of loan. Non-Monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to the translation difference.

(14) Revenue recognition

The company has applied Ind AS 115 ' Revenue from contracts with Customers' with effect from 1st April 2018. In accordance with Ind AS 115, the company recognises revenue from sale of products and services at a time when performance obligation is satisfied and upon transfer of control of promised products or services to customer in an amount that reflects the consideration the company expects to receive in exchange for their products or services. The company derives revenue primarily from sale of manufactured goods and traded goods. The company disaggregates the revenue based on nature of products/Geography.

• Dividend income:

Dividend income is accounted for when the right to receive the same is established, which is generally when shareholders approve the dividend.

• **Interest income:**

Interest income is recognised on effective interest method taking into account the amount outstanding and the rate applicable.

(15) Employees Benefits

(a) Short term employee Benefit:

All employees' benefits payable wholly within twelve months rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., and the expected cost of bonus are recognized during the period in which the employee renders related service.

(b) Defined Contribution Plan:

Contributions to the Employees' Provident Fund and Employee's State Insurance are recognized as Defined Contribution Plan and charged as expenses in the year in which the employees render the services.

(c) Defined Benefit Plan:

The Leave Encashment and Gratuity are defined benefit plans. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method with actuarial valuations being carried out at each balance sheet date, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. Re-measurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not classified to the statement of profit and loss in subsequent periods. Past Service cost is recognised in the statement of profit and loss in the period of plan amendment.

The Company recognises the following changes in the net defined benefit obligation under employee benefit expenses in the statement of profit and loss.

- Service costs comprising current service costs, gains and losses on curtailments and non-routine Settlements.
- Net interest income or expense.

(d) Long term Employee Benefit:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date.

(e) Termination benefits:

Termination benefits are recognised as an expense in the period in which they are incurred.

The Company shall recognise a liability and expense for termination benefits at the earlier of the following dates:

- (i) when the entity can no longer withdraw the offer of those benefits; and
- (ii) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of termination benefits.

(16) Borrowing costs

(a) Borrowing costs that are specifically attributable to the acquisition, construction, or production of a qualifying asset are capitalised as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.

(b) For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a

qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

(c) All other borrowing costs are recognised as expense in the period in which they are incurred.

(17) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

(a) Finance Lease

Finance Lease that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's policy on borrowing costs.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

(b) Operating Lease

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by lessor are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Payments/receipts under operating lease are recorded in the Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

(18) Taxes on income

Income Tax expenses comprise current tax expenses and the net change in the deferred tax asset or liabilities during the year. Current and Deferred tax are recognised in Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity respectively.

Current Tax

The Company provides current tax based on the provisions of the Income Tax Act, 1961 applicable to the Company.

Deferred Tax

Deferred tax is recognised using the Balance Sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(19) Provisions, Contingent liabilities, Contingent assets and Commitments

(a) General

The Company recognizes provisions for liabilities and probable losses that have been incurred when it has a present legal or constructive obligation as a result of past events and it is probable that the Company will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a financing cost.

Contingent liability is disclosed in the case of:

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation:
- A present obligation arising from past events, when no reliable estimate is possible:
- A possible obligation arising from past events, unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

(b) Other Litigation claims:

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

(c) Onerous contracts:

Provisions for onerous contracts are recorded in the statements of operations when it becomes known that the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received.

(20) Exceptional Items

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the company is such that its disclosure improves the understanding of the performance of the company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

(21) Earnings per share

Basic Earnings per share is calculated by the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. There are no diluted earning per share as there are no dilutive potential equity shares.

(22) Segment accounting

The Operating segment of the company is Edible oils, Ceramics and Wind Power generation and the same have been evaluated on management approach as defined in IND AS-108 "Operating Segment". The company accordingly reports its financials under three segments.

(23) Financial statement classification

Certain line items on the balance sheet and in the statement of Profit and Loss have been combined. These items are disclosed separately in the Notes to the financial statements. Certain reclassifications have been made to the prior year presentation to conform to that of the current year. In general the company classifies assets and liabilities as current when they are expected to be realized or settled within twelve months after the balance sheet date.

**(24) Fair value measurement**

The Company measures financial instruments such as derivatives and certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability.

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

- **Level 1-** Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- **Level 2-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- **Level 3-** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(25) Non-current assets held for sale and discontinued operations

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups are classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a complete sale within one year from the date of classification.

Discontinued operations are excluded from the results of continuing operations are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

Assets and liabilities classified as held for distribution are presented separately from other assets and liabilities in the balance sheet.

A disposal group qualifies as discontinued operation if it is a component of the Company that either has been disposed of, or is classified as held for sale, and:

- Represents a separate major line of business or geographical area of operations,

- Is part of a single co-ordinate plan to disclose of a separate major line of business or geographical area of operations
- Or
- Is a subsidiary acquired exclusively with a view to resale.
- An entity shall not depreciate (or amortise) a non-current asset while it is classified as held for sale or while it is part of a disposal group classified as held for sale.

LAW TRIBUNAL (Earlier Company Law Board)

- Order dated 14.03.2012 passed by Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur inter alia in S.B. Civil Misc. Appeal No. 2218 of 2011 in respect of partition suit was set aside by the Hon'ble Supreme Court vide order dated 04.08.2014 and the matter was remitted back to Hon'ble High Court of Judicature of Rajasthan for its fresh consideration after hearing the parties. Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, after hearing the parties, passed an order dated 06.04.2015 partially setting aside Order dated 10.02.2011 passed by the Court of Ld. ADJ, Jaipur. The order dated 06.04.2015 passed by Hon'ble High Court of Judicature of Rajasthan was challenged before the Hon'ble Supreme Court of India by the original Plaintiffs by filing SLP (C) No.11870 of 2015 and Hon'ble Supreme Court of India dismissed the SLP vide order dated 29.01.2019. After dismissal of the SLP filed by Original Plaintiffs there is no restraint order against the Company for transferring or alienating its properties or creating charge over the properties of the Company.
- The cases filed against the Company under Section 397-398 of the Companies Act, 1956 are still sub-judice before the Hon'ble National Company Law Tribunal (erstwhile Company Law Board), Jaipur/Kolkata which are yet to be heard finally by the NCLT.

- The company owns 247500 equity shares of Saurabh Agrotech Pvt. Ltd., which was illegally transferred. This illegality has been challenged by the Company before the National Company Law Tribunal (NCLT) under Section 111 of the Companies Act, 1956. Since the case is sub-judice before NCLT and Hon'ble High Court of Judicature of Rajasthan, Bench at Jaipur, the holding of such investment is continued to be shown in the books of the company.
- Presently, the Company is registered owner of SCOOTER trademark/device/logo and copyright holder for the artwork of SCOOTER Wavy device which is registered with Registrar of Trade Mark and Copyright. The Company is taking appropriate legal action against all the persons who are infringing its trademark and copyright. The Company is also defending its right before the Hon'ble Courts and Tribunals, wherever the challenges against use of 'Scooter' and /or any other intellectual property rights of the Company have been made.
- Deputy Director, Directorate of Enforcement, Patna filed a complaint on 06.12.2018 under Section 5(5) of the Prevention of Money Laundering Act, 2002 (PMLA) before Adjudicating Authority against the Company on the basis of provisional attachment OC No. 1064/2018. The Hon'ble Adjudicating Authority (PMLA) vide its order dated 02.05.2019 confirmed the provisional attachment order and allowed the complaint filed by Deputy Director, Directorate of Enforcement, Patna. As per the order, an Appeal against the above said order lies to Hon'ble Appellate Tribunal, PMLA, New Delhi under section 26 to the PMLA Act. The Appeal may be filed within a period of 45 days from the date of receipt of the order. The Company filed an Appeal before Appellate Authority, PMLA, Delhi titled Vijay Solvex Limited Vs. Deputy Director, Enforcement of Directorate against order dated 02.05.2019 passed by the Adjudicating Authority, PMLA and also filed an application for de-freezing the bank account of the Company held in State Bank of India. The Appellate Authority vide order dated 24.07.2019 has directed ED to defreeze the account of the Company and the said account is now operational. The matter is next listed for final arguments on 27.11.2019.
- The Board is hopeful that the pending matters would be disposed of in favour of the Company.

3. Mortality	IALM(2006-08)	IALM(2006-08)
4. Salary Escalator	8.00%	8.00%

37.3 **Risk Factors:** Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20, 00,000).

37.4 Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

(in Rs.)

Particulars	31-Mar-2019	31-Mar-2018
Defined Benefit Obligation (Base)	25074818	23335219

(in Rs.)

Particulars	31-Mar-2019		31-Mar-2018	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%)	26523528	23783324	24697897	22115486
(% change compared to base due to sensitivity)	(5.8%)	(-5.2%)	(5.8%)	(-5.2%)
Salary Growth Rate (- / + 1%)	23878113	26376162	22184861	24602989
(% change compared to base due to sensitivity)	(-4.8%)	(5.2%)	(-4.9%)	(5.4%)
Attrition Rate (- / + 50%of attrition rates)	25099050	25051704	23350473	23320774
(% change compared to base due to sensitivity)	(0.1%)	(-0.1%)	(0.1%)	(-0.1%)
Mortality Rate (- / + 10% of mortality rates)	25075784	25073856	23335765	23334677
(% change compared to base due to sensitivity)	(0.0%)	(0.0%)	(0.0%)	(0.0%)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated.

39. Financial Risk Management

The Companies Activities Expose It to credit risk, liquidity risk and market risk. This note explains the source of risk which the company is exposed to and how the manages the risk and its impact in the financial statement. The board of directors provides guiding principle for overall risk management, as well as policies covering specific area i.e.. Foreign exchange risk, Credit risk & Investment of Surplus liquidity. The companies risk management is carried out by finance department, accordingly, this department identifies, evaluation and hedges financial risk.

(A) Credit Risk

The Company takes on exposure to Credit risk, which is the risk that counterparty will default on its contractual obligations. Credit risk arises from trade receivable, Loan and other financial assets.

Credit Risk Management

The main source of credit risk at the reporting date is from trade receivables as these are typically unsecured. This credit risk has always been managed through credit Approvals, establishing credit limits and continuously monitoring the creditworthiness of customer to whom credit is extended in normal course of business. The company estimates the expected credit loss on the basis of past data and experience. Expected credit losses of financial assets receivable in next 12 months are estimated on the basis of historical data provided the company has reasonable and supportable data. On such an assessment the expected losses are nil or negligible.

Review of outstanding trade receivables and financial assets is carried out by management each quarter. The company do not have any doubtful debts hence, no provision for bad and doubtful debts have yet been made in accounts.

(B) Liquidity risk

The principle source of liquidity of the Company are cash and cash equivalents, borrowings and the cash flow that is generated from operations. The Company believes that current cash and cash equivalents, tied up borrowing lines and cash flow that is generated from operations is sufficient to meet requirements. Accordingly, Liquidity risk is perceived to be low.

The following table shows the maturity analysis of financial liabilities of the Company based on contractually agreed undiscounted cash flows as at the Balance sheet date:

Particulars	Less than and equal to one year	More than one year	Total
As on 31/03/2019
